EDUCATION

University of Illinois at Urbana-Champaign

Urbana, IL

Bachelor of Science in Computer Science, Minor in Data Science

Aug. 2024 – May 2028

Vernon Hills High School

Vernon Hills, IL

High School Diploma

Aug. 2020 – May 2024

EXPERIENCE

Head of App Dev & Software Engineering Intern

January 2026 – Present

FiPet

Remote

- Developed and shipped frontend features using React Native, improving app usability and overall user experience
- Collaborated with the startup team to integrate Firebase-backed data with the UI, gaining hands-on experience building production-ready mobile interfaces
- Stepped up as a Technical Lead, authoring architecture documentation, conducting code reviews, and delegating development tasks to shorten delivery timeline

Board of Directors

Aug. 2023 – Present

Xperience Consulting

Vernon Hills, IL

- Led coding camps and technical programs for students while coordinating projects and assigning tasks across team members, contributing to the growth of the organization into a nationally recognized non-profit
- Secured funding and worked with leadership to manage projects and grow educational programs

Software Engineering Intern

July 2023 – Aug. 2023

Tachyon Dynamics

Remote

- Developed a network testing framework using Scapy and Wireshark to validate IPv6 connectivity
- Created automated test suites to identify bottlenecks and resolve network issues, ensuring full compliance with Federal IPv6 mandates

Code Sensei

Nov. 2021 – Aug. 2024

Code Ninjas

Libertyville, IL

- Taught programming and game development to students, emphasizing problem-solving, debugging, and core programming concepts.

PROJECTS

MediTrack | *React Native, TypeScript, Expo, Firebase, Python, FastAPI, LangGraph*

- Developed a cross-platform mobile app with React Native, TypeScript, and Expo, designing a clean interface for users to search, save, and manage medications
- Integrated AI into the app using a multi-step LangGraph pipeline to analyze user medication lists and identify drug interactions, side effects, and safety warnings
- Built a Python FastAPI backend that connects external drug databases with Firebase Firestore to retrieve medication safety data

Illini Women's Basketball Analytics Team | *Python, pandas, Data Analysis*

- Built Python data pipelines using pandas to clean, transform, and organize raw game data into player performance datasets
- Developed lineup-level metrics including plus-minus and offensive/defensive efficiency to help the coaching staff evaluate player combinations and team performance

HoopsNet | *React, Python, TensorFlow, pandas*

- Developed a React frontend and Python FastAPI backend to analyze NBA data and train TensorFlow models to predict NBA champions

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C++, C#, SQL, HTML, CSS

Frameworks: React, React Native, Tailwind, Expo

Machine Learning & Data: scikit-learn, statsmodels, TensorFlow, LangGraph, LangChain, pandas, NumPy

Developer Tools: GitHub, GitHub Copilot, Streamlit, PyQt5, Python-CAN, Matplotlib
